Real Estate Property Records (also called *property ownership records*) Is public information in the United States of America, which means anyone can access it. Real property records are generally filed with and kept on a county level; they originate from two major governmental sources: County Recorder's or Courthouse, Acquiring property information or running a title search used to intend going to the local recorder's office, waiting for hours and often filling out forms and paying a fee for each copy of a property record. Record Retrieval's high-speed online communications and secure e-commerce have made it possible to employ electronic property searches and deliver millions of real property records in a timely fashion. In addition to deeds; Record Retrieval also prepares property reports for homeowners; including comparable sales data, transaction history, nearby neighbors, schools, and crime rates, Record Retrieval also offers street maps and satellite images, county officials and demographic information. Our traditional searches are limited to County and State.

What is Real Property? The rights that one individual has in land or goods to the exclusion of all others; rights gained from the ownership of wealth. Property includes all those things and rights which are the object of ownership. Real property consists of land or anything attached to or a part of the land such as a house. Real property is commonly known as Real Estate, Property that becomes an integral part of a building such as heating and air conditioning units is also considered to real property. All other property such as stocks, bonds, jewelry is called personal property - our agency deals wholly with general real estate, and particularly with real estate property records.

What are Real Property Records? Real Property Records contain all of the recorded data associated with a particular Real Estate. Real Property definition includes many different types of properties such as residential, condominium, commercial, industrial, vacant land, mobile home, and time-shares.

What is Property Title? Evidence that the ownership of Real Estate is in lawful possession and evidence of ownership; it is the owner's right to possess and use the property.

What is a Property Deed? A written document properly signed and delivered, that conveys title to the real property. There are several types of deeds: General Warranty Deed, Quitclaim Deed, Special Warranty Deed, Grant Deed, Trustee's Deed and others.

Forms of Property Ownership: Real property can be held in several different methods, which affect income tax, estate tax, continuity, liability, survivorship, transferability, disposition at death and at bankruptcy. Most recognizable property ownership types are:

Tenancy in severalty: Ownership of property by one person or one legal entity.

Join tenancy with right of survivorship: Two or more persons own a property. A joint tenant with the common law right of survivorship means the survivor inherits the property without reference to the decedent's will. Creditors may sue to have the property divided to settle claims against one of the owners.

Tenancy by the entireties: A husband and wife own the property with the common law right of survivorship so, if one dies, the other automatically inherits.

Tenancy in common: Two or more persons own the property with no right of survivorship; each has an undivided interest. If one dies, his interest passes to his heirs, not necessarily the co-owner. Either party, or a creditor of one, may sue to partition the property.

Other Real Estate forms of ownership are business kinds such as: Corporation, Limited Partnership, Partnership, Real Estate Investment Trust, and Subchapter S Corporation. Practically all types of real estate can be held under virtually all forms of ownership.

Record are available at your local county recorder for a nominal fee; however you will need to go to the county recorder's office in person. You will not be able to receive a profile report as this is proprietary and only deliverable upon purchase of our services.
