

Email to St. Louis City Recorder of Deeds & Vital Records Registrar regarding website's [Consumer Alert on deed copy service](#)

Thank you posting your notice online about the inaccurate and unethical Deed Retrieval Service being sent from Fulton, MO for copy of deeds. I was about to write a check for this and something told me this seemed a bit odd- so I googled the Fulton, MO address and your posting about this unethical company populated. I recently moved into my home and nearly paid a fee I didn't need- Thank You. I have a feeling there are a lot of people who just pay this without regard as the page does look professional enough. I attached a scan of the document sent (front and back pages) from the "deed service" company in case it is different from their past scams and maybe this can help others from losing out on the scam.

Best, Jason
